

CELEBRATION OF WORLD ENVIRONMENT DAY

June 05, 2021 | 10.30 AM IST

World environment day is glorified all over the world on 5th June of each year, since 1974. It is the most phenomenal day for environmental plan and specifically to boost alertness across the dilemma to save our nature against pollutions, declining wildlife populations, cyanide fishing, deforestations, increased sea level, water stress etc. for the conservation and enhancement of environment.
