Total - 53
students.

Report

It's a successful programme. It is a seminar programme on "Data Science or "What to do after graduation." An eminent speaker Mr. Anujit Nandy associate of data science delivered a lecture on this topic. Students were impressed by his lecture. It was started at 12 noon, but extended to 2 hours. Some questions and queries were made by students. He nicely interacted with the students. Total 53 students were attended in this programme.

IF YOU ARE STILL WITH ME AND THINKING OF PRIVATE CORPORATE JOB

- You have four major options now

- Either learn any programming language currently used in the market (but not anyone can learn a language and start their career)
 - Python and JavaScript for the web/mobile app
- Or improve your language skill to make a career out of content related field. (This is irrespective of academic background)
 - Learn new language or improve your writing skill. Content writing etc.
- Professional studies (few of these are preferred after you join a company, few can be done early)
- Others:
 - Good marketing/sales/training course
