Report on 'Visit to local area with a significant minority population on 19.12.2018'

With a view to find out the drop-out students among minority community we visited local minority populated areas like Khaynan Purbapara, near G.T. Road and Multi. We came to know that some of them were reluctant in higher study due to their financial conditions and uncertainty of career. We tried to convince them for the necessity of compulsory education and encouraged them for higher study with a short lecture on career counselling. If financial condition becomes a barrier in higher study, they came to know that sufficient amount of stipend is available for them to carry out their studies.
