Thales

Thales

Thales

- The Ionian school of Pre-Socratic philosophy refers to Ancient Greek school of thought in Ionia in the sixth century B.C.
- Ionian school were the first in the Western tradition.

Thales

- The Ionian School included Thales, Anaximander, Anaximenes, Heraclitus, Anaxagoras etc. as philosophers.

Thales

- Thales (Greek: Θαλῆς, Thalēs) of Miletus (624 BC.- 546 BC) is regarded as the earliest Western philosopher.

Thales

- myths of anthropomorphic gods and heroes describe the origin and nature of the universe.

Thales

- Lightning and earthquakes were attributed to the activities of the gods.

Thales

Thales

Thales

Thales

Thales

Thales

Thales

- Thales sought naturalistic explanations for the universe, excluding supernatural explanations.

Thales

Thales

- He explained earthquakes by imagining that the Earth floats on water, and that earthquakes occur when the Earth is rocked by waves.

Thales

- Thales' most famous belief was his cosmological doctrine, which held that the world originated from water.
